OUR VISION

Our vision of Pharma education encompasses fostering Discipline, quality learning, innovation and competence in pharmacy professionals.

OUR MISSION

Our campus is equipped to access the best opportunities of growth and advancement by being prepared linguistically and culturally for them. The concept of enlightened citizens of the world will be the backdrop of all their endeavors. The students are carefully sensitized to environmental concerns, the feeling of nationalism and communal harmony.

Education for us is actually an essentiality that inculcates ethical and aesthetical values amongst the students through a structured, systematic programme providing them wings to explore the human & spiritual journey of life.

About college

RS Pharmacy College, a long-cherished dream of our board of governors, transformed into a reality, aims to provide an internationally competitive model for inclusive teaching and learning and prepare professionals for the 21st century global arena.

The college has been established under the Shri Shanker Kripa Nyas Trust. The trust has been successfully running several institutes, namely Dharendra Mahila PG College, Vindhya Gurukul College, RS Banaras Law College, Vindhya College of Pharmacy in Varanasi and Chunar, Mirzapur, and RS World School, Varanasi, providing quality education in the fields of agriculture, pharmacy, law, and arts as well as secondary education with a strength of over 5000 students.

RS Pharmacy College is nestled across 10 acres of lush green campus, situated in a peaceful and tranquil environment, and planned with very modern infrastructure, activities and events to make it a professional institution full of learning and vibrancy.

The college aims to serve as a benchmark for laying out the parameters of academic excellence, which are process-led and inquiry-based, along with a provision for personality development, interaction-skill development, and vocational invigoration aided by the use of the latest information technology and tools as one of its primary teaching and learning approaches.

OUR INSPIRATION (About founder)

Shri Rama Shankar Jaiswal Ji (10th July 1931 - 2nd September 2003) was born into an ordinary business-class family, and possessed a strong, assertive belief in Indian values, traditions, sacraments, and culture.

He held a special place in his heart for the deprived and the

downtrodden

and he

accepted

and

extended

his

charitable

services to

them. He

worked for

the upliftment

of women in

society and

was an ardent

believer in the fact

that an educated

woman serves as a

strong pillar to the home and

society at large. His immeasurable

contribution in the field of the

religious and social reform movement has been a source of motivation for generations to come. Never did he get his name embedded on stones and marbles, as he believed that everything fades and perishes with the passage of time; what is left and remembered is your great work and contribution towards society.

In profound memory of our true inspiration and brainwave, RS Banaras Law College was established in 2004 with the vision to produce qualified, challenging law graduates who would be able to achieve the highest level of success in the legal profession. Realizing the notion of Shri Rama Shankar ji that roots need to be nurtured strong so that the fruits are sweet, this legacy is being carried forward as we have expanded into several other colleges and a very modern school with the latest facilities and curriculum for the young aspiring learners as well as the aspiring professionals and independent, confident leaders of tomorrow.

Mr. Ravindra Jaiswal

Welcome letter from chief trustee

My best wishes for the prosperity of our institution. I believe that quality education in technical development for the future of pharmacy is the need of our time. Turning learning into applied practices of this industry and converting talent into meaningful living are our drive.

Our institute impacts skills and expertise to enrich the students and mould them into successful pharmaceutical persons of the future in whatever positions they will be. The institute is enriched with teaching talents in various specializations of pharmacy. Various academic and co-academic activities conducted by us help in the overall personal, professional and social development of students.

You are welcome here to take this opportunity to nurture your future.

Mr. Ayush Jaiswal

FORM THE CHAIRMAN DESK

Our objective is to create a centre of excellence for education in the field of pharmacy. Our institution is expected to evolve into one of the best educational institutes of this stream of education

Having state of-the-art infrastructure, I am very confident that the college ambience at our campus will be academically satisfying and fruitful and of course disciplined.

It is a pleasure to extend my warm wishes to the aspiring students and their parents. I also assure you that under the guidance of our dedicated faculty students will grab the opportunities, empower polish future and thus fulfil your dreams.

A top-down view of various medical supplies including a stethoscope, several capsules (blue, orange, white), a cluster of white tablets, and a syringe with an orange plunger, all arranged on a light blue surface. A white wavy shape separates this image from the text below.

From the Desk of Director Pharmacy

As the director, it is my pleasure to extend a warm welcome to all who are part of our vibrant academic community. We are committed to fostering an environment of academic excellence, personal growth, and community engagement where aspirations are high.

With the rapid advancements in pharmaceuticals and healthcare, ongoing education is essential for pharmacists to stay updated on new drugs, treatments, and regulations. As such, we want to ensure that stake holders receive the highest awareness and training, and believe our campus practises these aspects.

PROGRAMME EDUCATIONAL OBJECTIVES

Pharmacy students are expected to acquire and imbibe the following aspects of professional pharmacy education and this college puts in the best efforts in imparting training for this cause.

- Professional Expertise
- Research & Development
- Social Responsibilities
- Entrepreneurship
- Continuous Learning

Infrastructure

The infrastructure of our campus plays a budding hand in creating a favourable environment for a student's growth. There is strong evidence that high-quality infrastructure facilitates better instruction, improves learning outcomes, and reduces dropout rates, among other benefits. We offer the best facilities as we believe that there is a direct relationship between school infrastructure and educational performance.

INDOOR SPORTS & OUTDOOR STADIUM:

Studies combined with constructive recreation by sporting activities or similar pursuits play a positive role in refreshing the learner's mind and focus. The college ensures that its students do not miss such facilities

Classroom:

The college provides modern AC classrooms equipped with digital boards and whiteboards for focused teaching and learning.

Conference Hall

It serves as an appropriate spot to hold guest lectures and common meetings as well as co-curricular events for the common cause of training for educational betterment of our students. Collective effort, peer competitiveness and stage fear get a good riddance with participation in such exposures.

**Parking
Library
Computer Lab**

Computer Lab

Library

Facilities

Cafeteria

The canteen menu thoughtfully combines taste with nutrition and freshness while enlisting eatables on the list. Edible quality control is monitored by the college authorities.

Transport

The college provides GPS enabled vehicles for safe and secure student and faculty commute between the college campus and the nearest convenient spots on popular residential routes of the city.

Well Trained and Qualified Faculty

Industrial visit

Industrial visit has its own importance in a career of a student who is pursuing a professional degree. It is considered as a part of college curriculum. The objective of an industrial visit is to provide us an insight regarding internal working of companies. With an aim to go beyond academics, industrial visit provides students a practical perspective of the work place. It provides us with an opportunity to learn practically through interaction, working methods and employment practices. Our college has arrangements with some relevant establishments for organising visits to their manufacturing facilities.

College activities

Orientation programme

Mere textual and academic learning of any professional course does not make a student profession-ready because the application aspect of their learning also needs to be seasoned with practical wisdom of the industry people, the professionals who are really living the world of industry and manufacturing and its sales. At this college, orientation programmes are organised to facilitate dissemination of standard practical knowledge to our students. The first orientation programme is conducted at the start of a course which all the students have to attend along with their parents to ensure that they appropriately grasp what lies ahead for them at the campus and in the pursuit of their chosen programme.

Training & Placement

We fully understand the expectations of students of professional courses that their college must also provide for placement opportunities at the culmination of their academic courses, drawing inspiration as they do from such a trend prevailing at the professional colleges. We have kept this understanding as our priority as we make arrangements with several relevant establishments for the purpose at the ripe time.

Research & Development

Safety and Security

CCTV

The college campus and building interiors are wired with a 24-hour CCTV network that is monitored by the staff in the security and safety department.

ID Cards

For security reasons, students, faculty members, and administrators are to wear their college ID cards on campus, and they must be visible at all times. The security and safety department also manages the visitor ID cards that are given out at the security guard stations at the school gates. Access to the college campus will be barred if an ID card is not displayed or presented at request. Parents and guardians are also provided with ID cards while visiting the college campus.

VIGIL

We have the latest standards of safeguarding policies, placing a huge value on student safety and protection. Our college community implements campus-wide safety measures, including student safeguarding procedures and policies, to help protect our students and keep them safe.

College Rules & Regulations

- Every student and their parent will have to sign in agreement the undertaking framed by the college as rules and regulations for the students.
- Every student must follow punctuality according to the prescribed timetable. Timetable is subject to revision from time to time and the changes must be adhered to.
- Wearing the individual identity card is a must for on campus presence for all the persons present, be they students, teachers, administrative personnel or supporting staff. The college authorities reserve the sole right, at their discretion, to bar entry to the campus of any such defaulter.
- Vandalizing, inflicting damage or defacement to any college property will incur proportional compensatory punishment for the perpetrator as adjudicated by the disciplinary committee.
- Proper dress code, as prescribed, must be followed by all those who will come under the purview of such prescriptions.
- A minimum of 85 percent attendance per semester is mandatory for a student. An inducement of up to 5 marks is provided based on fulfilment of individual attendance levels.
- There is no provision for a reassessment for the absentee from any written or practical assessment.
- Students will have to mandatorily write the class tests and complete assignments from time to time as instructed.
- Any student found guilty of any aspect of untoward behaviour on the campus, like physical or psychological ragging or manhandling, verbal or actional misbehaviour, may be subjected to bear the consequences as per the provisions of the UGC Regulations as well as the law and rules in force.
